

# Focused on Infection Prevention. Together.

---

As Olympus continues to set new standards in endoscopy, we stay focused on the health and safety of patients and users. We strive to ensure that you have access to the latest advances in infection prevention with trusted products, comprehensive education and support that empowers you to perform your very best.

With this platform, Olympus provides information in the areas of infection control, reprocessing and microbiology, combining data-driven, practical advice and training with clinical and scientific information and research.

Olympus is your trusted partner in infection prevention, supporting you in minimizing infection risks so that you can deliver a high level of patient care and safety, independent of medical application, geographic area or patient history.
